

Cuarzo Series

CZ WE-73

Interior lighting with energy saving LEDs

How does it work?

The Cuarzo series stands out for its robustness and resistance to external attacks. Made of steel, its thickness of 12mm on the door and 8mm on the body gives it extra security.

Of sober design, this series are ideal for use in business: its interior dimensions allow to accommodate A4 size documentation (models with 30cm background).

It is also recommended to provide service in homes that require extra security.

Electronic models include automatic interior lighting as standard.

Features

| | |
|------------------------------------|--------------------------------------|
| Door thickness: | 12 mm. |
| Body thickness: | 8 mm. |
| Bolts: | 6 to 8 x Ø25 mm in 3 sides. |
